EDITORS VIEW

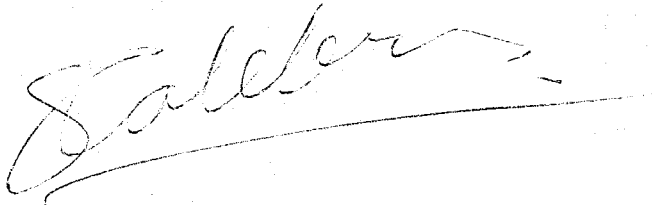

Congradulations BMSC on 30 years of safe caving. It is great to see a group of people enjoying themselves and being safety conscious at the same time. Well done. This Journal is dedicated to all of you.

This Journal is a continuation from the 25th Anniversary addition. Past members are only those members who have left the Club in the past five years, so don't be dissappointed if your name is not in writing, you are still remembered.

This is my first attempt at doing a major journal, I hope you enjoy reading it. Don't forget to sign the autograph sheet which will be at the Anniversary dinner and printed in the next Oolite.

Well, happy reading, enjoy your dinner and congradulations all members, current and past, of BMSC.

Sue Coleborn.

INDIVIDUAL BIOGRAPHIES

SHANE ANDERSON

I began caving with CSS (Canberra Speleo Society). My first cave was Punchbowl at Wee Jasper when I was 24 years old. I stopped caving for 11 years. When I moved back to Sydney I got in touch with ASF and found BMSC. My favourite cave is Kubla Khan because of its length and decoration. I hate Dwyers' Cave at Jenolan as it is too muddy and tight. Tasmania is my favourite area even though I have only been there once.

LEN BAKER

My first cave was Grill Cave at Bungonia. Argyll at Bungonia is the worst cave because I was stuck in a tight squeeze. Tuglow Main is my favourite cave. My favourite area is Jenolan.

CAROLYN BRETT

I joined BMSC because of Rick. My first cave was Old Inn at Yarrangobilly, I wasn't too impressed because Rick told me that the only squeezes in there a truck could fit through. HE LIED!!! My favourite area is Cliefden because of the hut.

RICK BRETT

I began caving with John Chorley who was a member of BMSC. My first caving trip was a Search and Rescue weekend at Bungonia and the first cave was B4-5. My favourite cave is Taplow Maze at Cliefden as each time I went there I found something new. I hate spider cave at Jenolan as it is too tight. My favourite area is Cliefden/Walli because they are peaceful and there are no crowds. I was rather embarrassed to get booked for speeding while other cavers were in the car. Some members will remember the traditional resting place in the B4-5 Extension.

MICHELLE COLEBORN

My first cave was Grill Cave, Bungonia in 1980. My favourite cave is Main Cave Cliefden. because it is warm, muddy and pretty. I hate Taplow Maze because it is cold and rocky.

SUZANNE COLEBORN

I started caving because of Kevin. My first time caving was at Cliefden and we did Main and Murder. I will never forgive Kevin for it because I walked around like an old woman for a week. My favourite cave is Main because of the formations. Blowfly at Bungonia is a horrible cave because on exiting I got stuck and used a lot of colourful language before I managed to get out. I haven't caved since I fell pregnant with Richard.

TIM PEARSON

My first cave was Pilchers Hill with Newcastle Scouts in 1977. I guess Tuglow Main is my favourite cave because I find it challenging. The worst cave I have been to would be Diamond Cave at Wellington. Yarrangobilly is my favourite area.

I saw the article that Louise submitted to the Blue Mountains Gazette and joined BMSC with Neil. I had been underground with Radio Wien Emergency Communications and my first cave was Shaduff at Bungonia. My favourite cave is Mammoth at Jenolan because it is big and sporting. I hate Taplow Maze at Cliefden because it is too dry, Dwyers at Jenolan because it is too muddy, and Spider at Jenolan because it is too tight. My favourite area is Jenolan because it is close to home and there are tourist caves for the family. But I enjoy other areas as well. I once made the mistake of taking a banana to Dwyers Cave! When I took it out of my pack it was mashed beyond recognition.

Please pass on my apologies for the 30th dinner, I have too many things on that weekend.

Enclosed is a Newsletter from nearly 20 years ago when I was Publicity Officer. It is a copy of the only Newsletter I kept. I used to run them off at school (Faulconbridge) on the old spirit duplicator. (See next page)

A black and white photograph showing a group of approximately ten men standing on a dirt path in a mountainous, wooded area. The men are dressed in traditional clothing, including wide-brimmed hats, long tunics or ponchos, and breeches. Some are holding long staffs or rifles. The background features steep, rocky slopes and dense vegetation. The lighting is bright, creating strong shadows.

LIFE MEMBERSHIP FOR LIONEL BAKER

Lionel joined BMSC in 1968 and since joining has rarely missed a meeting even though he travels from Engadine to get there. In the late 60's early 70's Lionel helped with the exploration and documentation of Tuglow and Abercrombie areas. Tuglow Main has remained his favourite cave because it is every type of cave in one. In the early 80's he helped Terry Coleborn with the survey and documentation of the caves at Cliefden.

Besides his membership with BMSC he has also been an active member of the Lapidary Club and Plastic Moulding Club. Over the years he has shown the younger members the fossils on Fossil Hill Cliefden and has shown them how to pan for gold.

Since 1988 he has been actively involved with recording engraving and art sites in the Royal National Park and was a member of the Bicentenary Living Site Survey Team. In 1994 he helped Louise Coleborn with her Aboriginal book "From the Dreaming to Mabo - a study of Aboriginal culture".

Lionel has a great interest in Astronomy and lead a trip to Cliefden to show the members Haley's Comet with his telescope. He is always available to show the members and their families the different constellations.

From the time he joined the club he lead a trip to Wyanbene every year up until the late 80's and lead many trips to Cliefden which is his favourite area. Remember.....the rocket days.

Lionel was elected our first Senior Vice President in 1992 and has held the position ever since. He is our longest current member, a total of 28 years. He was awarded a long service award in 1986 at the 20th Anniversary Dinner.

Because of his active involvement and dedication to the Club over the years the Club members have decided to present Lionel with Life Membership at the 30th Anniversary dinner.
